EDUCATION

PhD in Computer Science

2026 – Present

Tulane University

Bachelor of Computer Science

Aug 2021 – Jun 2025

National University of Computer & Emerging Sciences (FAST-NUCES)

Dean's List: Fall 2021, Spring 2022, Fall 2022

RESEARCH EXPERIENCE

Urdu-English Multimodal Toxic Language Detection

Aug 2024 – May 2025

- Built the first real-time Urdu toxicity dataset (2,466 audio clips), showing audio-text models outperform text-only by 13.5%.
- Identified systematic biases in Meta's MuTox through analysis of diverse real-world conversational data.

Measuring Fairness and Bias Across Social Dimensions

Dec 2024 – Feb 2025

- Created SALT (4,225 prompts) to study gender, religion, and race biases; developed seven bias-testing tasks revealing consistent favoritism patterns across LLMs.
- Introduced scalable bias evaluation with LLMs, validated against human judgments, finding stronger biases in English and Arabic.

WORK EXPERIENCE

Research Assistant | Hydroinformatics Lab, Tulane University

2026 – Present

- Working under Dr. Ibrahim Demir's supervision.

Software Engineer | i2c Inc.

Jul 2025 – 2026

- Assisted in the design & integration of Visa & Mastercard Click to Pay. Enhanced legacy backend system including card generation, statements, reports and credit card payment distribution.

Software Development Intern | Techlogix Inc.

Aug 2024

- Worked on developing a Learning Management System to get familiar with coding practices and design patterns followed in industry.

PROJECTS

All Things Done

- Built and deployed a full-stack platform for job management, messaging, and scheduling.

Campus Landmark Localization

- GPS-free campus localization using SAM segmentation and ResNet-18 classification across 26 landmarks to estimate user position.

Kahaani – An Interactive Storytelling System for Language Education

- Developed an interactive Urdu storytelling platform aimed at improving language learning for children aged 6–12.
- Conducted feedback sessions with parents and teachers to evaluate engagement and usability during learning activities.

Travel Planning & Flight Search Platform

- Built a full-stack platform integrating Amadeus Flight APIs for interactive travel planning.

Urdu Image Captioning

- Built an Urdu image captioning pipeline (ViT + RoBERTa-Urdu) using MS-COCO captions translated via Seamless M4T. Available on HuggingFace.

TECHNICAL SKILLS

Languages | Python, C/C++, JavaScript, Java, SQL, HTML/CSS

Frameworks | ReactJS, NextJS, NodeJS, FastAPI, Flask, Django, ASP.NET Core

Tools | Git, Docker, AWS, PostgreSQL, MongoDB, Redis, Supabase

Libraries | PyTorch, transformers, LangChain, NumPy, pandas
